GST & TAXATION PRACTICAL TRAINING — DAY 29

GSTR-2B Reconciliation • ITC Matching • Financial & Tax Working Review

Training objective

Match purchase-register invoices with sample GSTR-2B entries, identify missing invoices, document supplier follow-up, and review the additional company sales/tax worksheet.

1. Purchase Register

Bill No.	Vendor	Taxable (■)	IGST (■)	CGST (■)	SGST (■)	ITC (■)
PUR001	Vendor A	50,000	0	4,500	4,500	9,000
PUR002	Vendor B	30,000	5,400	0	0	5,400
PUR003	Vendor C	40,000	0	3,600	3,600	7,200
TOTAL		1,20,000	5,400	8,100	8,100	21,600

2. GSTR-2B reconciliation

Bill No.	Vendor	Purchase ITC (■)	GSTR-2B status	Action
PUR001	Vendor A	9,000	Matched	Verify details
PUR002	Vendor B	5,400	Missing	Follow up with supplier
PUR003	Vendor C	7,200	Matched	Verify details

3. Reconciliation totals and formulas

Particular	Amount (■)
Total Purchase ITC	21,600
Matched ITC	16,200
Missing ITC	5,400

Formula examples:
Invoice ITC: =D2+E2+F2 (if D:F contain IGST, CGST and SGST).
Total ITC: =SUM(G2:G4).
Matched ITC: =SUMIF(D2:D4,"Matched",C2:C4).
Missing ITC: =SUMIF(D2:D4,"Missing",C2:C4).

4. Company Sales Financial — corrected figures

Particular	Amount
April Sales	■20 lakh
May Sales	■25 lakh
June Sales	■30 lakh
July Sales	■25 lakh
August–March Sales	■2 crore
Total Turnover	■3 crore

Turnover check

■20 lakh + ■25 lakh + ■30 lakh + ■25 lakh + ■200 lakh = ■300 lakh = ■3 crore. The August–March figure is ■2 crore; including it makes the stated annual turnover correct.

5. Additional simplified taxation working

Item	Amount / Calculation	Review
Turnover assumption	■3,00,00,000	As corrected above
Output GST @18%	■54,00,000	Only if all ■3 crore is taxable at 18%; not a universal GST rate
Assumed ITC	■30,00,000	Training assumption; eligibility/support not supplied
Indicative net GST	■24,00,000	Arithmetic: 54L – 30L
Expenses	■2,30,00,000	Training input
Profit before tax	■70,00,000	Arithmetic: 3Cr – 2.3Cr
Income tax @22%	■15,40,000	Simplified assumption only
Surcharge @10%	■1,54,000	Illustrative
Cess @4%	■67,760	4% of ■16,94,000
Total income tax	■17,61,760	Under stated simplified assumptions

Important correction and compliance note

The earlier discrepancy was caused by omitting the August–March sales of ■2 crore from the total. The corrected total is ■3 crore; the user's updated figures are consistent. The GST estimate at 18% is valid only under the stated hypothetical assumption. Actual GST rates vary by supply. ITC and income tax require separate statutory checks; simplified worksheet arithmetic is not a return or tax advice. GSTR-2B is auto-generated and a match alone does not establish ITC eligibility.
