HR Practical Training — Day 13

HR Policies & Policy Management | Excel Practical

Training date	10 October 2026
Start time	6:29 PM IST (as recorded in chat)
Completion time	Exact time not independently verified
Workbook reviewed	HR Training Day 13(1).xlsx
Training mode	Self-directed practical exercise using sample data

Objective

Create and maintain a basic HR Policy Master, record employee policy acknowledgements, document sample leave/attendance/work-from-home rules and code of conduct, and summarize acknowledgement compliance in Excel.

Workbook sheets reviewed

Sheet	Review
HR Policy Master	10 policies recorded; 10 marked Active.
Employee Policy Acknowledgement	30 employee-policy records; acknowledgement dates/statuses entered.
Leave Policy	5 leave types documented.
Attendance Policy	6 attendance rules documented.
WFH Policy	6 work-from-home rules documented.
Code of Conduct	8 conduct rules documented.
Policy Compliance Summary	Summary formulas present and values verified.

Policy Compliance Summary — verified results

Metric	Verified value
Total policies	10
Active policies	10
Total acknowledgements	30
Acknowledged	28
Pending	2
Compliance	93.33%

QA notes

• All seven expected worksheets are present.

• Policy acknowledgement references resolve to Leave Policy, Attendance Policy, and Code of Conduct for the employee records.

• The summary formulas return 10 policies, 10 active policies, 30 acknowledgements, 28 acknowledged, 2 pending, and 93.33% compliance.

• Kavita Verma's two pending sample records have blank acknowledgement dates, consistent with their Pending status.

• The 28/2 acknowledgement split is a training scenario assumption, not evidence of real employee responses.

• Policy entitlements and attendance/WFH rules are illustrative training content; actual company policies and statutory requirements must be verified before workplace use.

Skills practiced

HR policy documentation, policy register maintenance, employee acknowledgement tracking, Excel cross-sheet references, COUNTIF/COUNTA summary formulas, compliance percentage calculation, and basic HR MIS validation.

Training record disclaimer

This report records a self-directed HR practical training exercise completed with sample data. It is not an employer-issued experience certificate, proof of employment, or legal/compliance certification.
