HR PRACTICAL TRAINING

DAY 15 — Employee Engagement & Employee Satisfaction

Training Date	12 October 2026	**Workbook**	HR Training Day 15.xlsx
Start Time	Not separately verified	**Completion Time**	Not verified

Training Objective

Practise collecting employee engagement feedback, calculating engagement scores, classifying engagement levels, tracking feedback items, performing a basic retention-risk exercise, and preparing an HR summary and chart in Excel.

Work Completed

Sheet / Task	Completed work
Employee Engagement	10 fictional employee survey records with four 1–5 rating factors.
Engagement Score	Average Score calculated using AVERAGE; Engagement Level classified as High, Moderate, or Low.
Feedback Tracker	10 feedback records with category, priority and status.
Retention Risk	10 training records with a simple rule-based risk classification.
Engagement Summary	KPI formulas for survey count, engagement levels, average score, feedback status and risk.
Chart	Engagement overview chart prepared from the High/Moderate/Low summary table.

Verified Engagement Results

Metric	Result
Total Employees Surveyed	10
High Engagement	3
Moderate Engagement	6
Low Engagement	1
Average Engagement Score	3.68
Open Feedback Items	5
In Progress Feedback	2
Closed Feedback Items	3
High Retention Risk	1
Medium Retention Risk	3
Low Retention Risk	6

Chart Review

The engagement chart uses the summary categories High, Moderate Engagement, and Low rather than individual employee IDs. The corrected category label is “Moderate Engagement”.

Skills Practised

Employee engagement survey handling, Excel AVERAGE and COUNTIF formulas, feedback tracking, basic retention-risk analysis, KPI reporting, and chart preparation.

Training record disclaimer: This is a self-directed HR practical training record using sample/fictitious data. It is not an employer-issued employment or experience certificate and does not represent real employee survey results.
