HR Practical Training — Day 18

Employee Records & HR Documentation Management

Training date: 15 October 2026 **Recorded start time:** 8:07 AM IST

Completion time: Not independently recorded **Workbook reviewed:** HR Training Day 18(1).xlsx

1. Learning Objective

Practise maintaining employee document records, tracking missing documents, monitoring verification status, following up on pending documents, and presenting documentation KPIs in an Excel dashboard.

2. Workbook Sheets Reviewed

Sheet	Purpose / review result
Employee Document Register	10 fictional employee records; document status fields reviewed.
Document Status Analysis	Document-wise received, pending, and completion-rate formulas checked.
Missing Document Tracker	6 missing-document records; employee name correction verified.
Document Verification Tracker	10 verification records; dropdown now includes Verified, Pending, Rejected.
Document Follow-up Tracker	6 follow-up actions; status summary checked.
HR Documentation Dashboard	KPI formulas and both chart source ranges reviewed.

3. Verified KPI Results

KPI	Verified result
Total Employees	10
Total Document Records	40
Received Documents	34
Pending Documents	6
Overall Document Completion Rate	85%
Employees Requiring Follow-up	6
Verified Documents	4
Pending Verifications	6
Total Follow-up Actions	6
Pending / Contacted Actions	4 / 2

4. Quality Check

• Confirmed corrected sheet names: Employee Document Register and Document Verification Tracker.

• Confirmed the corrected employee name Ravi Kumar and the Employee Name header in the follow-up tracker.

• Confirmed the verification dropdown options are Verified, Pending, and Rejected.

• Confirmed Dashboard totals: 10 employees, 40 document records, 34 received, 6 pending, and 85% completion.

• Confirmed the verification chart uses the Verified, Pending, and Rejected summary rows; chart title is Document Verification Summary.

• The correct verification split is 4 Verified and 6 Pending. The earlier 5/5 expectation was incorrect.

5. Skills Practised

Employee documentation control, missing-document tracking, data validation, structured-reference formulas, COUNTIF/COUNTA/SUM/AVERAGE-based summaries, completion-rate reporting, dashboard KPI review, and chart-source verification.

Training record note

This is a self-directed practical training record prepared from the workbook review and training conversation. The workbook uses fictional sample data. It is not an employer-issued experience certificate, and it does not represent employment with a real company. The recorded start time is based on the training note; an exact completion time was not verified.
