Sales Executive Training — Day 23

Project: Sales Target vs Achievement, Performance Status and Commission Calculation

Workbook reviewed: HR Training Day 23(Sales).xlsx

Training objective: calculate target achievement, classify performance, apply the commission policy, and summarize team results.

Commission policy: achievement below 80% = 0%; 80% to below 100% = 2%; 100% to below 120% = 5%; 120% or above = 7%.

Corrections / Checks

• The formula in Sales Summary for “Highest Commission” should use =MAX('Sales Performance'!I2:I11), not COUNTA(MAX(...)).

• The “20000 up executive target” formula currently counts actual sales of at least 20,000, not the amount above target. To count executives at least 20,000 above target, use =COUNTIF('Sales Performance'!J2:J11,">=20000").

• Review spelling consistency in names: “Anjli Mishra” may be intended as “Anjali Mishra”; “Vikash Yadav” may be intended as “Vikas Yadav”. Confirm from source records before changing.

• The achievement and commission formulas are structured appropriately when copied down. Apply percentage/currency number formats for readability.

Practical outcome

The workbook covers individual performance, commission calculation, region-level sales summaries, and target attainment. After applying the corrections above, it can serve as a practical Sales Executive performance tracker.
