Sales Executive Training — Day 24

Project: Customer Follow-up Tracking and Reminder Alerts

Workbook reviewed: HR Training Day 24(Sales)(1).xlsx

Training objective: maintain customer follow-up records, prioritize leads, and identify completed, overdue, due-today, and upcoming follow-ups.

Review date used for alert calculations: 26-Oct-2026. Formula-based alerts change automatically with TODAY() when the workbook recalculates.

Customer Follow-up Review

ID	Customer	Product	Lead Stage	Next Follow-up	Method	Status	Deal Value	Priority	Alert	Days
FU001	Amit Sharma	Laptop	Intrested	26-Oct-2026	Phone Call	Pending	55,000	High	Due Today	0
FU002	Neha Verma	Printer	Proposal Sent	25-Oct-2026	Email	Pending	25,000	High	Overdue	-1
FU003	Rahul Singh	Desktop	Contacted	27-Oct-2026	Phone Call	Completed	45,000	Medium	Completed	1
FU004	Priya Gupta	Laptop	Negotiation	25-Oct-2026	Meeting	Pending	65,000	High	Overdue	-1
FU005	Rohit Kumar	Monitor	New Lead	28-Oct-2026	Whatsapp	Pending	18,000	Low	Upcoming	2
FU006	Anjali Mishra	Desktop	Qualified	26-Oct-2026	Phone Call	Completed	40,000	Medium	Completed	0
FU007	Vikash Yadav	Printer	Intrested	24-Oct-2026	Email	Pending	22,000	High	Overdue	-2
FU008	Sneha Patel	Laptop	Proposal Sent	27-Oct-2026	Phone Call	Pending	60,000	Medium	Upcoming	1
FU009	Deepak Verma	Monitor	Contacted	29-Oct-2026	Whatsapp	Completed	20,000	Low	Completed	3
FU010	Pooja Singh	Desktop	Negotiation	25-Oct-2026	Meeting	Pending	48,000	High	Overdue	-1

Summary Results

Metric	Calculated result
Total Follow-ups	10
Completed Follow-ups	3
Pending Follow-ups	7
High Priority Customers	5
Overdue Pending Follow-ups	4
Total Deal Value	398,000
Highest Deal Value	65,000
Lowest Deal Value	18,000
Interested Leads (after spelling correction)	2
Negotiation Leads	2
Lead needing follow-up (row 9 reference)	Sneha Patel

Corrections / Checks

• Correct the header “Follow-up Aleart” to “Follow-up Alert”.

• Standardize “Intrested” to “Interested” in the Lead Stage column and update the summary COUNTIF criterion to “Interested”.

• Standardize “Whatsapp” to “WhatsApp” and “Need follow-up Costomer” to “Customer Needing Follow-up”.

• The alert formula prioritizes Completed status first, then checks whether the next follow-up date is overdue, due today, or upcoming. This logic is sound.

• The “Need follow-up Customer” formula currently points to B9 (Sneha Patel) but that row’s next follow-up date is 27-Oct-2026 and its status is Pending. If the intended result is the next pending customer due earliest, use a more deliberate selection rather than a fixed cell reference.

• The Days Until Follow-up formula =F2-TODAY() is appropriate for date-based countdowns; completed items can still show a negative/positive day count, so consider blanking it for completed follow-ups if desired.

Practical outcome

The workbook demonstrates customer follow-up logging, prioritization, and reminder alerts. After correcting spelling and making the summary customer-selection logic dynamic, it will be more reliable for daily sales work.
