SALES EXECUTIVE PRACTICAL TRAINING

Day 27 Completion Report — Zoho CRM Inventory & Sales Documents

Training Day	Day 27
Date	30 October 2026
Platform	Zoho CRM
Practical Focus	Inventory modules, sales documents and CRM records
Evidence	Two screenshots supplied by the trainee

Practical work reported as completed

• Reviewed and practiced the Zoho CRM Inventory section and its business-document workflow.

• Worked with the Products, Price Books, Quotes, Sales Orders, Purchase Orders, Invoices and Vendors modules, as reported by the trainee.

• Reviewed converted lead records in the Converted Leads report.

• Created/reviewed an Invoice preview linked to the Verma Trader account and a sales order/quotation record.

Screenshot evidence — observations

Screenshot 1 shows the Converted Leads report with Total Records: 2. Visible rows include Rahul Kumar / RK Infotech and Amit Verma / Verma Trader. This confirms that converted-lead records are present in the displayed report.

Screenshot 2 shows an Invoice print preview for Verma Trader. The preview displays Product LAP-015, quantity 2, list price Rs. 85,000 each, subtotal Rs. 1,70,000, adjustment Rs. 1,60,000 and grand total Rs. 3,30,000. The displayed adjustment/tax calculation appears unusual and should be checked before using this as a real invoice. The preview date shown is 30/10/2026.

Skills practiced

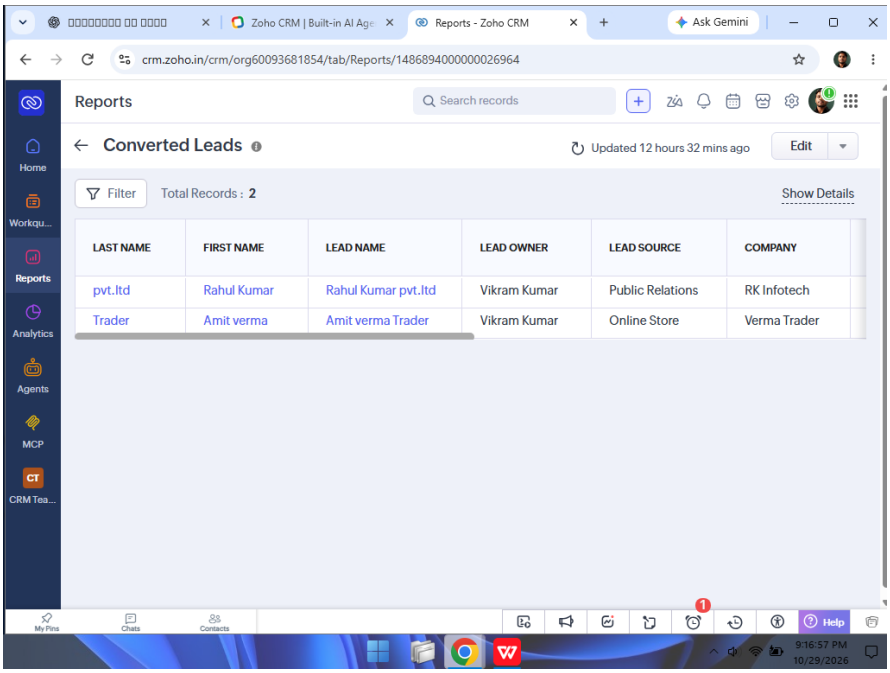

Product and vendor record handling; price list setup; quotation and order workflow; purchase order process; invoice preparation/preview; converted-lead reporting; and checking totals on customer-facing sales documents.

Review note

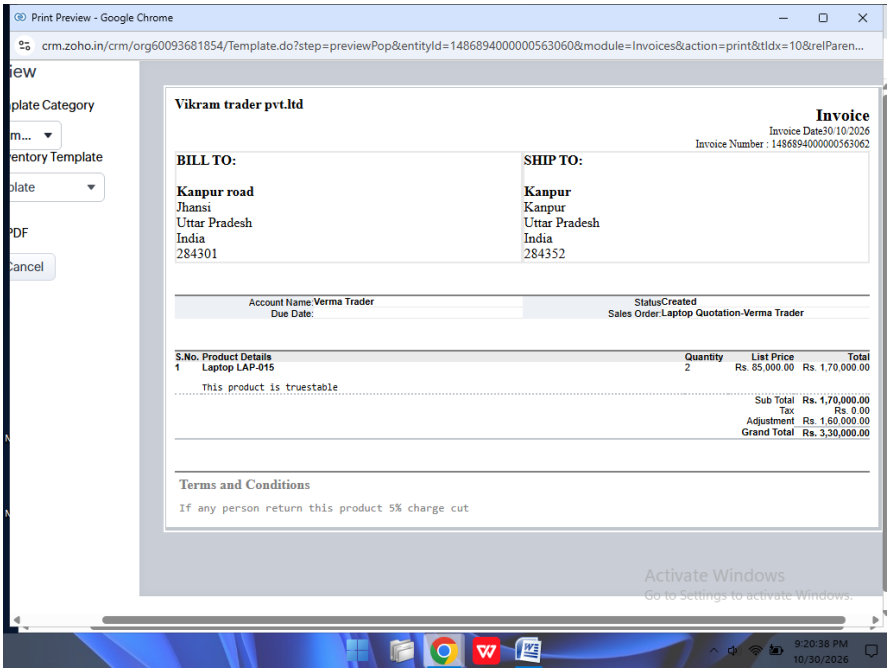

The screenshots directly evidence a Converted Leads report and an Invoice preview. Completion of the other Inventory modules is recorded based on the trainee's confirmation; those individual screens were not included in the submitted evidence. The invoice's adjustment and grand-total figures should be verified in Zoho before sending or marking the invoice as final. This is a training record, not an employer-issued certificate.

Attached practical evidence

Evidence 1 — Converted Leads report

Evidence 2 — Invoice print preview

Prepared from the trainee's reported practical completion and the two screenshots provided on 30 October 2026.
